ALLIES WELL PREPARED

Forces There Largely Increased Since Victories Won in the Spring.

LONDON, Sept. 4.-Austro-German troops on the Macedonian and Italian fronts are showing signs of preparation for a new offensive, according to statements issued to-day by the British and Italian War Offices. An official statement issued here said that the forces of the Central Powers, under the cover of an intense bombardment, opened an attack on Monday against the allied forces along the Vardar River, and that the enemy was repulsed.

At the same time the Italian War Office reported an attack by Austrian troops along the line north of the Noce valley and to the south of Mantello. This attack also was checked, according to the statement which follows:

ITALIAN-North of the head of the Noce Valley strong enemy columns attacked yesterday from the east, after artillery fire, our positions to the south of Mantello. They were arrested with heavy losses by our fire. The enemy succeeded in occupying two observain occupying two observation posts established on the crest between Mantello and San Matteo Point Enemy patrois were dispersed on Asiago Plateau and in the Brenta Valley. that the Austro-German forces would open a new campaign on the Italian or the Balkan fronts, but with the growth of the ailled offensive on the front in France the report was discounted, be-cause of the ever increasing demands there for the forces of the Central Powers. Austria repeatedly has called for aid from the Germans for a new drive against Italy, following the failures earlier in the year.

When the allied pressure in the west

became heavy Germany turned the tables and sought assistance from Aus-tria. Vienna, however, was unable to deliver all the troops asked for by Germany and this increased the friction be tween the two Teutonic allies. Austria did send some troops and reports of their captures by the allied forces in France

The Allies, since the spring successes in Italy and in Albania, are prepared for this move, for the Italian forces have been augmented by French, British and American politics. ican soldiers. Still it is admitted that Germany and Austria must do something to brace the weakening mornie at home and at the front, and this drive may be

'UNDERGOING SEVEREST TRIAL' German Critic Admits Perilon

Situation of Von Bochn's Army. AMSTERDAM, Sept. 4.—Writing in the Dusseldorf Nachrichten Gen. von Ardenne, the military critic, admits that the German army is now unquestionably undergoing "the severest trial to which it was ever exposed." but that "the scales of success are beginning to sink slowly in its favor."

The German front as a whole, Gen.

von Ardenne contends, will not witnes a much further withdrawal.

The war correspondent of the Frankfort Gazette, telegraphing from the

front, says: "The events occurring on the northern wing of the battle front may be described as a preparatory battle for a big general attack by the British and Prench in the direction of St. Quentin."

The aim of the British, he says, is to dislodge the Germans from the says, is to SAUNIER, LEWIS A. Navarre. Ohio SAUNIER, LEWIS A. Navarre. dislodge the Germans from the souther Somme position. Further heavy fighting must be expected by Germany, he writes. The military critic of the Berlin Kreus Zeitung expresses relief that the front of March 21 is still some distance back of the present fighting line. "There is now as little reason for de-

pression as during the Flanders battle he contends. "The summer of 1916 was certainly more critical for us."
